ABOUT GPB 2026

GPB 2026 invites esteemed global experts, professors, researchers, and industry leaders to explore the forefront of plant biology and biotechnology. This conference covers a wide spectrum of topics from molecular genetics to innovative biotechnological applications. Engage in insightful discussions on plant genomics, gene editing technologies, and sustainable agriculture practices. The event serves as a vital platform for cross-disciplinary exchange, unveiling breakthroughs in crop improvement and biotechnological innovations. Attendees can participate in keynote addresses, scientific presentations, interactive workshops, and poster sessions highlighting pioneering research. Connect with visionary leaders and contribute to advancing plant science and biotechnology at this pivotal gathering.
